## Mr. Dave:

Thank you for your reply. A hard copy of the application will work, assuming that all maps, referenced tables and other attachments are on letter size paper. Please let me know if this is not the case, and before you incur any expenses duplicating very large, poster size attachments. Thanks,

**JETorres**

Subject Re: Fwd: UEC Mine Application

Mr. Torres,

We do not have the complete application on CD; just the text. We do have paper copies of the entire application. If you would like me to send you a paper copy of the application, please let me know.

## David Murry

>>> <Torres.Jose@epamail.epa.gov> 9/14/2007 3:24 PM >>> Good afternoon Mr. David:

Thank you very much for your assistance in securing an electronic copy of UEC's permit application for conducting in-situ uranium mining operations in Goliad County. Unfortunately, the document that you provided arrived without the figures, maps, appendices, and even some tables, referenced in the body of the document. The received document consists of text only.

In the past, we have received from TCEQ similar documents containing

illustrations and maps which have proven helpful to us in understanding the proposed projects, one of such cases being the application from Corsicana Technologies. I have enclosed an image file of one of the maps in CTI's application, to give you an idea of what I had in mind when I submitted my request. I would appreciate hearing from you in regard to whether a complete application document might be available in electronic format, even if it has to be placed on a CD.

Thank you very much for your assistance in this matter. Sincerely,

Jose Eduardo Torres - 6WQ-SG (214) 665-8092

Fwd: UEC Mine Application

Mr. Torres,

Please find attahced an electronic copy of the UEC Class III well area permit application, which you requested on September 11th. This is the site in Goliad County

David Murry

I have attached an electronic copy of the application for your files. Good talking to you. See you next week with an update on the 5 baseline wells. Have a good weekend.
